in LinkedIn  GitHub  Coding Profile

Professional Summary

Full-stack web developer and Computer Science (AI) student with hands-on experience building responsive, production-ready applications using JavaScript, Node.js, React.js, and MongoDB. Strong problem-solving ability backed by 100+ DSA solutions and top academic rankings. Collaborative team player with exposure to secure web development practices through government-affiliated cybersecurity training.

Education

- **Supaul College of Engineering, Supaul** Jun 2023 – Present
Bachelor of Technology in Computer Science Engineering (AI) **CGPA: 8.99/10**

Experience

- **AI Web Development Intern** Jun 2026 – Jul 2026
InAmigos Foundation (ISO 9001:2015 Certified, CSR-1 Registered)
 - Built a fully responsive **personal portfolio website** to showcase projects, skills, and technical profile
 - Conducted a **website improvement and UX analysis** of the foundation's official site, identifying usability, performance, and design gaps and proposing actionable fixes
 - Developed a full-stack **e-commerce web application** covering product listings, cart, and checkout flow
 - Contributed to **UI/UX design work in Figma**, creating wireframes and mockups to guide frontend implementation
- **Virtual Intern – Ethical Hacking & Penetration Testing** Jan 2025 – Mar 2025
Cyber Gyan Project, C-DAC Noida (Ministry of Electronics & IT, Government of India)
 - Gained structured exposure to cybersecurity fundamentals including network vulnerabilities, threat modeling, and attack surface analysis under a premier government R&D organisation
 - Learned secure system design principles applicable to web development, including input validation, session management, and safe data handling

Technical Skills

- **Languages:** Java, JavaScript, C, C++, HTML5, CSS3
- **Frameworks & Libraries:** Node.js, Express.js, React.js, Bootstrap 5, Tailwind CSS, EJS
- **Databases:** MongoDB, MongoDB Atlas, Mongoose ODM
- **Tools & Platforms:** Git, GitHub, VS Code, Render, Hoppscotch, Vercel
- **Core CS:** Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks

Projects

- **InterviewAI – AI-Powered Interview Preparation Platform** [Live] [GitHub]
React 19, React Router 7, Vite, Node.js, Express 5, MongoDB, Mongoose, JWT, Multer, Puppeteer, Google Gemini API
 - Built a full-stack MERN-style platform that generates a tailored interview prep plan – technical & behavioral questions with model answers, a resume-to-job match score, and skill-gap analysis – from an uploaded job description and resume
 - Integrated **Google Gemini API** (@google/genai) for AI-driven report generation and **Puppeteer** for automated PDF generation of tailored resumes and reports
 - Implemented secure **JWT-based authentication** with protected routes, resume upload via **Multer**, and PDF parsing for resume ingestion
 - Designed a RESTful API (Express 5, MongoDB/Mongoose) with dedicated auth and interview-report modules, consumed by a responsive **React 19 + Vite** SPA built with React Router 7
- **BankEase – Multi-Role Bank Management System** [Live] [GitHub]
Node.js, Express.js, MongoDB, EJS, REST API, node-cron
 - Engineered a full-stack banking system with **4 role-based dashboards** (Manager, Account Creator, Cashier, Updater) and dedicated access controls
 - Implemented KYC workflow, transaction limits, and a multi-level **freeze request approval chain** with role-based authorization
 - Built **auto EMI deduction** via node-cron with startup recovery for missed EMIs; managed **17+ active loan accounts**
 - Seeded system with **48 customers, 17 loans, 620 transactions**; generated printable loan letters, statements, and audit logs

Certifications and Achievements

- **Branch Rank 1** from Semester 1 — **University Rank 1** in branch during Semester 4
- Secured **1st Rank** in College Coding Contest – organized by College Coding Club
- Completed **Cisco Networking Academy** courses: Cybersecurity Essentials, Python Essentials, CPP Essentials
- Certified in **Advanced C++ Training** – Spoken Tutorial Project, IIT Bombay
- Certified in **Introduction to Computers** – Spoken Tutorial Project, IIT Bombay
- Solved **100+ DSA problems** across LeetCode, GFG, CodeChef, and HackerRank
- Awarded **Scholarship for Academic Excellence** in 12th grade
